I am a developer and designer with a degree in History with first-class honours. I am equally comfortable in the arts and the sciences. I like problems and will attack them until solved. I like to communicate in paint, print, and programming.

Skills

- I have computing and I.T. experience of the following, with varying familiarity:

Systems langs. (C, C++, Go, D)	Scripting langs. (Python, PHP)	Functional langs. (Haskell)
Javascript, CoffeeScript	jQuery, jQuery UI	Apache, NodeJS, MVC (Django)
HTML5, CSS3, XML, JSON, <i>etc.</i>	Revision control (git, svn)	Testing (xUnit, TDD)
SQL, MySQL, PostgreSQL	Photoshop, The GIMP, Inkscape	TEX, L ^A TEX
OpenOffice, MS Office	Linux, Windows	Networking (small-scale)
- An understanding of algorithmics and a comfortableness with formalism. I am familiar with Big-O notation. I enjoy playing with and implementing algorithms for their own sake.
- An impeccable grasp of the English language. I write for pleasure, and enjoy communicating ideas with flair, clarity and concision. I believe this is a prerequisite of being an effective programmer.
- An eye for aesthetics, design, and presentation. I adore understated typography, functional communication, and interactive design. I not only apply these principles to documents I produce for print and for the web, but apply graphical and spatial thinking to general problem-solving.
- Problem-solving and strategic thinking. I will thrive in an intellectually challenging workplace. I strive to eliminate routine tasks.
